

# 2022 MRS FALL MEETING & EXHIBIT

November 27–December 2, 2022 | Boston, Massachusetts  
December 6–8, 2022 | Virtual

## Symposium SB05

### Emergent Order and Mesoscale Structure Formation in Soft Condensed Matter

#### Topics will include:

- Kinetics, thermodynamics, and driving forces of structure formation
- Structure formation in the bulk, in layers, and in confinement
- Structure determination and analysis
- Particle synthesis and design
- Phase transitions
- Emergent functional properties (photonic, phononic, mechanical, etc.) and templating processes to create functional surface patterns and materials
